- Coaching: executive, middle management and teams
- Facilitation: conferences, workshops, strategic/operational planning
- Program and project management
- Strategy and performance improvement
- Change management and stakeholder engagement
- Business excellence and process redesign
- Team development, performance improvement
- Management and leadership development
- Conflict management

Industry Experience

- Health, education, communities, research, information technology, construction, manufacturing, energy, not for profit sector

University, Training & Industry Qualifications

- Advanced Group Facilitation
- Project Management (PMBOK and PRINCE2)
- Lean Six Sigma
- Business Management
- Business and Life Coaching
- Workplace Training and Assessment
- Team Management Systems Provider
- Team STEPPS Trainer
- Statistical Process Control
- Registered Nurse and Registered Mental Health Nurse

Career Achievements

- Developed Australia's Executive Coaching Excellence Framework
- Developed Australia's first child and youth mental health service website
- Published research in project management and e-health
- Manage my own successful business and helping others do the same

Testimonials

"Matt is easy to work with. He engaged the team, set objectives for the workshop and delivered on those. His work is consistently of a high standard, manages the timing of the workshop well, uses innovative strategies and keeps it fun. The team also provided very good feedback in terms of Matt's ability to engage the team", *Director Maternity and Child Health, Queensland Health*"

"Matt is a professional and accomplished Performance Coach and team leadership consultant. He came to the YMCA highly recommended for his work with Guide Dogs Queensland. Matt is honest, reliable and easy going with all levels of staff. He has provided us with team building expertise and also leadership training for the senior managers. His coaching skills and use of coaching language put him well above the average in his effectiveness in delivering these important programs. I can highly recommend Matt to any organisation considering team building and leadership skills development.

Ian Rowan - CEO YMCA of Bundaberg"

I don't normally do this, but when something comes past that I believe can make a difference in a business I like to share. Below is a link to a business who are working through owners, CEO's, GM's Managers, supervisors - in driving true better team outcomes, not only at senior management level, but they provide the tools to drive it all the way down to the operator / shop floor.

I have just spent three days with these guys in workshop conditions and the transition I saw in our people was amazing. But their true value does not exist in some hot bathing of your people in the team running around punching the air for five minutes. It's a structured work shop and work place driven outcomes tailored around what you want and what is missing in your world to make it happen. That's me off my soap box. Give'em a go - you won't be sorry.

Glen Allen- Ankings, General Manager, Commercial Operations, Guide Dogs Queensland

The SSW team program was a success and enjoyed by all who attended. From my point of view the preplanning and communication helped to refine what I was looking for on the day. Setting out the day's program and who does what made it clearer for me and the day ran well. Since returning, the team is working well with the added pressures of completing sections of work prior to Christmas and this is definitely in part as a result of the team program. Members are communicating and dealing with challenges in a more positive manner.

Merging two distinctive teams is an issue of change management, having a day out with the team program set the milestone and tone for all those I'm working with. In dealing with yourself and Inspiring Results I found you to be flexible and concerned with achieving outcomes I was looking for. The package and people involved did a great job and it is a formula that will bring you ongoing success. Matt – thank you.

Matt coaches, facilitates and undertakes team performance development in government, private and not-for-profit sector. He has worked across rural, regional and metropolitan areas in project management, stakeholder engagement, service improvement and change management.

He has held a number of senior management roles in Queensland Government and worked for two universities. He has managed large multi-professional project teams, virtual statewide teams and intersectoral projects. He has published research in project management and e-health and presented at national and international events and received national and international awards for innovation.

Areas of Expertise

- Coaching: executive, middle management and teams
- Facilitation: conferences, workshops, strategic/operational planning
- Program and project management
- Strategy and performance improvement
- Change management and stakeholder engagement
- Business excellence and process redesign
- Team development, performance improvement
- Management and leadership development
- Conflict management

Industry Experience

- Health, education, communities, research, information technology, construction, manufacturing, energy, not for profit sector

University, Training & Industry Qualifications

- Advanced Group Facilitation
- Project Management (PMBOK and PRINCE2)
- Lean Six Sigma
- Business Management
- Business and Life Coaching
- Workplace Training and Assessment
- Team Management Systems Provider
- Team STEPPS Trainer
- Statistical Process Control
- Registered Nurse and Registered Mental Health Nurse

Career Achievements

- Developed Australia's Executive Coaching Excellence Framework
- Developed Australia's first child and youth mental health service website
- Published research in project management and e-health
- Manage my own successful business and helping others do the same

Testimonials

"Matt is easy to work with. He engaged the team, set objectives for the workshop and delivered on those. His work is consistently of a high standard, manages the timing of the workshop well, uses innovative strategies and keeps it fun. The team also provided very good feedback in terms of Matt's ability to engage the team", *Director Maternity and Child Health, Queensland Health*"

"Matt is a professional and accomplished Performance Coach and team leadership consultant. He came to the YMCA highly recommended for his work with Guide Dogs Queensland. Matt is honest, reliable and easy going with all levels of staff. He has provided us with team building expertise and also leadership training for the senior managers. His coaching skills and use of coaching language put him well above the average in his effectiveness in delivering these important programs. I can highly recommend Matt to any organisation considering team building and leadership skills development.

Ian Rowan - CEO YMCA of Bundaberg"

I don't normally do this, but when something comes past that I believe can make a difference in a business I like to share. Below is a link to a business who are working through owners, CEO's, GM's Managers, supervisors - in driving true better team outcomes, not only at senior management level, but they provide the tools to drive it all the way down to the operator / shop floor.

I have just spent three days with these guys in workshop conditions and the transition I saw in our people was amazing. But their true value does not exist in some hot bathing of your people in the team running around punching the air for five minutes. It's a structured work shop and work place driven outcomes tailored around what you want and what is missing in your world to make it happen. That's me off my soap box. Give'em a go - you won't be sorry.

Glen Allen- Ankings, General Manager, Commercial Operations, Guide Dogs Queensland

The SSW team program was a success and enjoyed by all who attended. From my point of view the preplanning and communication helped to refine what I was looking for on the day. Setting out the day's program and who does what made it clearer for me and the day ran well. Since returning, the team is working well with the added pressures of completing sections of work prior to Christmas and this is definitely in part as a result of the team program. Members are communicating and dealing with challenges in a more positive manner.

Merging two distinctive teams is an issue of change management, having a day out with the team program set the milestone and tone for all those I'm working with. In dealing with yourself and Inspiring Results I found you to be flexible and concerned with achieving outcomes I was looking for. The package and people involved did a great job and it is a formula that will bring you ongoing success. Matt – thank you.

Career Achievements

- Developed Australia's Executive Coaching Excellence Framework
- Developed Australia's first child and youth mental health service website
- Published research in project management and e-health
- Manage my own successful business and helping others do the same

Testimonials

"Matt is easy to work with. He engaged the team, set objectives for the workshop and delivered on those. His work is consistently of a high standard, manages the timing of the workshop well, uses innovative strategies and keeps it fun. The team also provided very good feedback in terms of Matt's ability to engage the team", *Director Maternity and Child Health, Queensland Health*"

"Matt is a professional and accomplished Performance Coach and team leadership consultant. He came to the YMCA highly recommended for his work with Guide Dogs Queensland. Matt is honest, reliable and easy going with all levels of staff. He has provided us with team building expertise and also leadership training for the senior managers. His coaching skills and use of coaching language put him well above the average in his effectiveness in delivering these important programs. I can highly recommend Matt to any organisation considering team building and leadership skills development.

Ian Rowan - CEO YMCA of Bundaberg"

I don't normally do this, but when something comes past that I believe can make a difference in a business I like to share. Below is a link to a business who are working through owners, CEO's, GM's Managers, supervisors - in driving true better team outcomes, not only at senior management level, but they provide the tools to drive it all the way down to the operator / shop floor.

I have just spent three days with these guys in workshop conditions and the transition I saw in our people was amazing. But their true value does not exist in some hot bathing of your people in the team running around punching the air for five minutes. It's a structured work shop and work place driven outcomes tailored around what you want and what is missing in your world to make it happen. That's me off my soap box. Give'em a go - you won't be sorry.

Glen Allen- Ankings, General Manager, Commercial Operations, Guide Dogs Queensland

The SSW team program was a success and enjoyed by all who attended. From my point of view the preplanning and communication helped to refine what I was looking for on the day. Setting out the day's program and who does what made it clearer for me and the day ran well. Since returning, the team is working well with the added pressures of completing sections of work prior to Christmas and this is definitely in part as a result of the team program. Members are communicating and dealing with challenges in a more positive manner.

Merging two distinctive teams is an issue of change management, having a day out with the team program set the milestone and tone for all those I'm working with. In dealing with yourself and Inspiring Results I found you to be flexible and concerned with achieving outcomes I was looking for. The package and people involved did a great job and it is a formula that will bring you ongoing success. Matt – thank you.
