

“ The content was excellent – a real eye opener – as I now think totally differently regarding how I will design and facilitate training. ”

“ Overall this has been a really valuable and enjoyable workshop. The facilitation and activities really brought the principles to life. It has changed my whole outlook on training. ”

Designing for Learning

Practical ideas and strategies for maximising learning from training

Real feedback from participants

“ The frameworks presented have given me the capability to re-think and re-work existing training courses and coaching methods. ”

“ There are heaps of examples to take away which can be used immediately. Many courses don't provide actual tools – only the theory. ”

“ I have very much enjoyed this workshop and am grateful for these powerful but simple tools to ‘make a difference’. I look forward to using them. ”

“ Content is fantastic – relevant, easy to understand and I will be able to use the materials as a reference in the future. ”

“ For the first time I understand what real learner engagement means. I will be able to apply what I’ve gained to help others and myself in getting the most from training/learning experiences. ”

“ I found the workshop to be extremely engaging; packed with practical models and ideas that were well proven and grounded in research. My head has been spinning with ideas ever since and I have already begun making changes to my designs to reflect what I have learnt. ”
