**Testimonials**

- Lee is one of those extraordinary people who can apply all their efforts to bring about significant change to any business. She single-handedly created a successful registered training organisation and local business network events that brought dozens of talented people together. Her writing skills are self-evident with her prolific published work. I look forward to working with Lee many times in the future

**Dr. Dan Hill**

*Director SpecTraining*

- Lee has worked with me on training programmes for both my operational and sales staff during my Transonic Travel years. Her service delivery and content for training is exemplary and the results showed almost immediately in terms of improved customer service and revenue production. I would not hesitate to recommend Lee as a Training Consultant or utilise her services again in the future." March 29, 2009

- Feedback sent to McGraw Hill Publishing, from TAFE QLD, about our new Training & Assessment Textbook: "I am so impressed by the content, structure, language and presentation of the advanced copy of the VOCATIONAL TRAINING AND ASSESSMENT text that you sent me that we've decided to make it the compulsory (and only) text for our day and night students in 2011".
