## Testimonials

**Michael Claydon, Managing Director, National Corporate Training Pty Ltd**

Brian, is an experienced and professional trainer who has run several courses for us in Certificate IV OSH. His knowledge, skills and ability as a trainer are exceptional and he is well received by our diverse range of clients. As a trainer Brian, understands the need to keep his skills current and at last check possesses qualifications in Management, Training and Assessment, Occupational Health and Safety, Human Resource Management and Teaching to name a few. Brian is extremely flexible and has run courses at short notice in the past. I would definitely recommend Brian, as your next trainer of choice.

**John Jenkins, General Manager Australasia, Enterprise Development Network**

This testimonial is to confirm that Brian Hanson has worked as a Facilitator, Trainer and Safety Coach for the Enterprise Development Network (EDN) since the 3rd June 2008 and is continuing to work with us as a contractor to this date.

During this period Brian has displayed a high level of professional behaviour as a facilitator. He has always sort to engage all participants in his workshops and encouraged group exploration of the topics under discussion. He has a strong grasp of facilitating processes and uses them systematically to obtain the best result for the client, but is also able to take a more flexible approach when the situation requires it. Some recent examples of work he has carried out for us include:

- Safety Conversations Workshops with Woodside Petroleum
- Safety Coaching with ExxonMobil
- Safety Coaching with SeaDrill
- Safety Leadership Workshops with Woodside Petroleum.

I have full confidence providing a testimonial regarding Brian's ability as a facilitator.
